SUMMARY

I'm a Junior Front-End Developer with a passion for building scalable web applications. With hands-on experience in UX/UI design, I've participated in startup competitions and worked on IoT projects. I have collaborated with cross-functional teams to develop user-friendly and responsive web applications. Currently pursuing a Bachelor's degree in Science and Technology at Kasem Bundit University (2021 - 2025). Always eager to learn new technologies and adapt to organizational needs, I strive to create seamless and engaging user experiences that meet both business and user requirements.

EXPERIENCE

Internship Full-Stack Developer SSL Logistics Co., Ltd.   **November 4, 2024 – March 14, 2025**
- As a Full-Stack Developer intern, I was responsible for the Front-End development of a Dealer Web project focused on management solutions. I used Next.js for front-end development, ShadCN for UI components, and Zustand for efficient state management. I collaborated with the UX/UI team to design and enhance the user experience, ensuring the interface was responsive, intuitive, and user-friendly.

IoT Smart Mushroom Farm Installation Klong Pak Lak Community   **June 24, 2024**
- Implemented an IoT Smart Mushroom Farm system for the Klong Pak Lak community as a part of my Bachelor's degree project. Developed the system using Arduino ESP32 and Sensor SHT45 to control various devices within the farm.
- Data from the sensors is transmitted to a custom-built website, integrated with LINE LIFF.

Thailand Cyber Top Talent 2023   **September 30, 2023**
Twenty Team
- CTF (Capture The Flag) challenges to by using Reverse Engineering ,Programming ,Web/Mobile Exploitation .etc
- Tool : Fire fox , Kali and Wire Shark etc.

Startup Thailand League 2023   **2023**
Long Chud Team
- My responsibility in the team was UX/UI design using Figma, and I contributed to designing a mobile application for selling clothes.

Startup Thailand League 2022   **2022**
Uni Clothes Team
- Passed the university selection round to represent in the regional Startup competition.
- My responsibility in the team was UX/UI design using Figma, with a focus on creating a mobile application for selling clothes.
